

Walk Through Metal Detector ZK-D1010L

Count statistics of alarms and people

Alarm strength indicator

Sound alarm

Program Self-diagnostic

Single detection zone

Password protection

Harmless to human body

100 adjustable sensitivity levels

Excellent anti-interference

Fireproof material

Applications

Exhibition center

Government office

Hotel

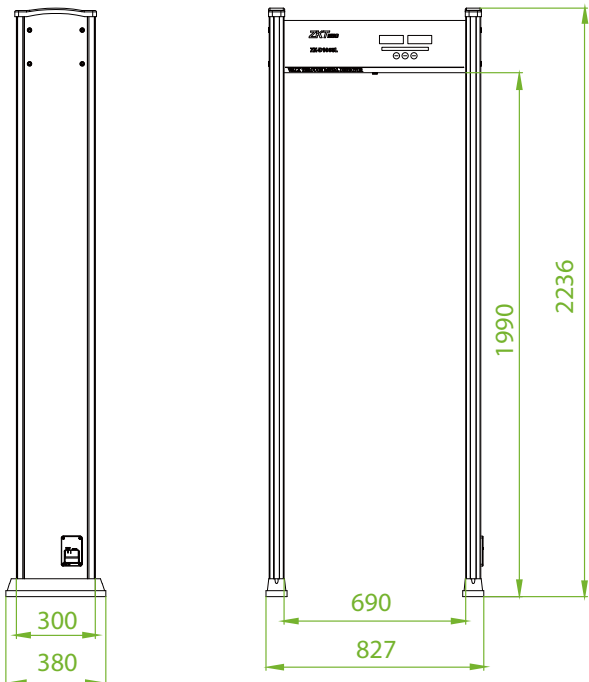

Feature

- 100 adjustable sensitivity levels
- People and alarm counting
- Password protection function
- Clear threat indication with sound alert
- Simple installation and use

Specifications

Model	ZK-D1010L
Power Supply	AC 100V to 240V
Working Temperature	-20°C to 55°C
Working Humidity	<95% (non-condensing)
Zone	1
Channel	14
Working Frequency	3KHz to 8KHz
Running Power	18W
Dimension (H*W*L)	2236*827*380 (mm)
Package size for door panels	2280*282*560 (mm)
Package size for control unit	760*320*260 (mm)
Net weight	33kg

Dimensions (mm)

Applicable Scenarios

High visitors flowrate

School

Shopping arcade

Entertainment
